

PRODUCT INFORMATION			
Product:			Version: 2.4.x.x
INTRODUCTION			
This document provides the current technical requirements for Sustainable Planner™			
TECHNICAL REQUIREMENTS			
Hardware and Software			
	Minimum Requirements	Recommended Configuration	Recommended Configuration (1000+ Concurrent Users)
CPU	2 GHz Pentium or AMD	Multi-core 2GHz Pentium or AMD	2x Multi-core 2Ghz Pentium or AMD
RAM (Double the amount if the Database is on the same server)	1 GB PC133 SDRAM	1 GB PC3200 DDR SDRAM	2 GB PC3200 DDR SDRAM
Hard Disk Space Tier 1 License Tier 2 License Tier 3 License	50 GB Stand-alone 100 GB Stand-alone 200 GB Stand-alone	50 GB RAID 1 / RAID 1+0 / RAID5 100 GB RAID 1 / RAID 1+0 / RAID5 200 GB RAID 1 / RAID 1+0 / RAID5	400 GB RAID5
Network Connectivity (Add another card if using 2 servers)	2x 10/100 Ethernet	2x 10/100/1000 Ethernet	2x 10/100/1000 Ethernet
Operating System / Web Server	Windows Server 2003 / IIS 5.0 or higher	Windows Server 2003 / IIS 5.0 or higher	Windows Server 2003 / IIS 5.0 or higher
Database			
<ul style="list-style-type: none"> • SQL Server – Version 7.0 or higher (preferred) • Oracle – Version 9 or higher 			
Embedded Software			
<ul style="list-style-type: none"> • Adlib Express Server (license included in Sustainable Planner™ licensing) <i>Although Adlib Express Server supports over 300 document types, if your document type is not supported, the specific software must be purchased and installed on the server.</i> • Crystal Reports Runtime (no license required) 			
Additional Software Licenses			
<ul style="list-style-type: none"> • Crystal Reports Developer (Version 11.0 recommended) <i>A Crystal Report Developer license is required if employees will be creating or editing reports)</i> 			
Supported Browsers			
Microsoft Internet Explorer (preferred)	Version 5.5+ or higher		
Mozilla Firefox	Version 2.0.0.11 (Mozilla/5.0)		
Apple Safari (Mac)*	Version 3.0.2		
*Safari for the PC has not been evaluated for use with Sustainable Planner™
